

Tableware

Arc International

Swirl from Mikasa combines elegance with originality to create a range which exudes an enviable ambiance on the table. The subtle swirl of colour in the glasses perfectly complements the unusual swirl in the stoneware. The result is another stunning collection.

Teapots

The London Pottery Company

Over the past 5 years The London Pottery Company's Globe teapot range, available in 4 sizes and 8 colours, has become a well established market leader. Responding to market requests, Managing Director David Birch has now designed and registered a new stainless steel filter, which can be found in a new range of filter teapots entitled 'Farmhouse'.
